

“SCIENCE WILL SET US FREE”

Without honest, current, transparent stock assessments on all fish stocks harvested in the state and federal waters off the states in the Gulf and South Atlantic, the biased system of fishery management being used today is nothing but heifer dust.

NOAA’s Dr. Roy Crabtree and Dr. Bonnie Ponwith have the power to accomplish great progress for the fishing industry that in the end would provide sustainable seafood and sustainable jobs for all sectors of the commercial and recreational fishing industry.

EVERY ENGO INTERESTED IN DOING THE RIGHT THING FOR THE RIGHT REASON SHOULD JOIN THE EFFORTS OF SOUTHEASTERN FISHERIES ASSOCIATION TO MANDATE FUNDING FOR STOCK ASSESSMENTS FROM FINES RECEIVED FROM THE OIL COMPANIES RESPONSIBLE FOR THE DAMAGE TO OUR ENVIRONMENT.
